R. Marconi called the meeting to order at 6:02 pm. Acting Chief Myers was asked to give his report.

A discussion on the condition of the apparatus floors at both stations took place. Chief Myers stated that the Headquarters floor was badly deteriorated and needed at least a temporary repair to prevent damage to the tires of Engine 1. He was coordinating with the Public Works Department and the Town Engineer on a repair. Station 2 could be deferred for the time being.

Chief Myers reported that all equipment was in service. The four gas meters used to test for hazardous environments were approaching the end of their useful life. A replacement schedule was being implemented out of the operating budget.

All vehicles were reported in service. The old Engine 2 was sold recently to a department in Oklahoma for \$10,000.

The fourth quarter EMS Survey Report was reviewed. Ridgefield still scores consistently in the top ten companies in the survey group. This is one indicator that our EMS system is providing the best possible service.

The minutes of the January 4, 2017 meeting were approved unanimously.

Motion to adjourn was passed at 6:46 pm.
