

ENERGY EFFICIENCY DELIVERS VALUE

Energy efficiency is an economic development engine for the state and it makes Connecticut a better place to live and work. In fact, Energy Efficiency Fund programs generated more than **9,200 Connecticut "green" jobs** in 2015 and nearly **\$1 billion in lifetime energy cost savings**. Those savings are being reinvested into Connecticut's economy, making our families stronger and our businesses more competitive.

In 2015, Ridgefield saved energy, money and reduced carbon emissions.

FINANCIAL SAVINGS

 Annual Savings	Lifetime Savings
\$ 150,612	\$ 2,382,734

ELECTRICITY SAVED (kWH)

 Annual Savings	Lifetime Savings
563,099	7,346,188

NATURAL GAS SAVED (CCF)

 Annual Savings	Lifetime Savings
3,936	90,833

FUEL OIL & PROPANE SAVED (GALLONS)

 Annual Savings	Lifetime Savings
17,394	374,970

CO₂ SAVED (TONS)

 Annual Savings
501

Throughout Connecticut

Every \$1 of investment in energy efficiency programs in CT offsets \$2.80 of new generation and other energy costs that consumers would otherwise have to pay for.

In 2015

Residential energy efficiency resulted in approximately \$481 million saved over the lifetime of the installed measures.

Nearly 39,000 homes weatherized including critical services provided to more than 20,000 low-income households.
