**Ridgefield, CT: April 16, 2021: The Good News about Domestic Travel: Fully vaccinated travelers have less stringent guidelines than those who have not been vaccinated. Connecticut reports that fully vaccinated travelers with an FDA-authorized vaccine):**

- Are less likely to get and spread COVID-19
- Do not need to get tested before or after travel unless their destination requires it
- Should continue to follow CDC recommendations for safe travel including wearing a mask, staying six feet from others, avoid crowds and wash your hands often.

**Travelers who are not vaccinated should follow CT and CDC guidelines which require quarantining and/or testing upon return to Connecticut. These recommendations are not made to restrict you, but to keep you and your community safe:** Review [CDC guidance for post-travel quarantine and testing](#)

Travelers should review [CDC's travel guidance](#) when planning travel outside of their local community. Know your [travel risk](#). Do not travel if you are sick, are considered [infectious after testing positive for COVID-19](#), or [should be quarantining after exposure](#) to a person with COVID-19. (From: [ct.gov website](#))

**OVER 60% of Ridgefield's population has now received at least one dose of the vaccine.**

**NEED A SHOT? WE CAN HELP!**
