At 2:05 PM, Ms. Peyser, Chairman called the meeting to order.

Items:

1. Ms. Peyser started the meeting with the continued discussion on the parameters for new stormwater regulation. She noted the documents shared by Mr. Sullivan and Mr. Pilch.

The members agreed that the chart created by Mr. Sullivan showing the percentage calculations for the impervious surface in the Town of Ridgefield will be incorporated into the regulations. Ms. Peyser suggested incorporating the percentage number of 10.79 percent as the total impervious surface, and that above this number the homeowner will have to mitigate with the stormwater plan.

Members discussed the language revised by Mr. Pilch for the regulations.
It was proposed that under the Purpose section of the Regulations, there should be a brief inclusion of MS4 regulations.

Members after discussion at length, decided to work on the definitions and the stormwater quality section of the regulations.

Mr. Robinson and Mr. Pilch will work on the language with intent to present a draft of the language for the next meeting for the review by the members of the subcommittee.

The next scheduled meeting will be on Friday April 26, 2019 at 2:00PM.
