The last Planning and Zoning Commission meeting for the retiring Commissioners will be November 9, 2021, with the new Commission members term starting on November 16, 2021.
Congratulations to everyone.

II: Public Hearings:

1. A-21-6: Regulation amendment Application per Section 9.2.B for Legislative amendment –Accessory Dwelling Units- Section 3.3; Section 5.6 and Section 6.2. Commission initiated.

Ms. Martin read the Legal Notice.

Ms. Martin identified four areas of Regulation wording corrections that were necessary to be compliant with Public Act 21-29 passed by the Connecticut Legislature in June of 2021.

Questions and concerns from Commissioners included whether the proposed wording was redundant and clear enough for proper interpretation and whether an ADU was intended to be in accordance with the design of the main property dwelling.

Ms. Martin stated that she had talked to the Building Officer, Jay Celestino, about the Building Codes for assistance with adequate language.

Mr. Baldelli stated that there was no Technical Correspondence.

The only public comment was from Ms. Elizabeth DiSalvo who agreed with Commissioner Katz that the ADU not be offensive to the design of the original property dwelling.

The Public Hearing closed at: 7:33 p.m.

Hearing no further discussion, the Chair closed the Public Hearing at: 7:33 p.m.

Chair Mucchetti called the next Public Hearing to Order at 7:33 p.m. via Zoom Webinar.

Ms. Martin read the Legal Notice.

Ms. Martin gave an overview of the proposed Regulation amendment that would put Section 9.2.B in compliance with Public Act 21-29. A regulation from the Town of Stonington was presented as a simple example to adhere to the new Statute.
Commission Hendrick asked why the Ridgefield Brook was not included in the list of rivers. Ms. Martin answered that the rule of thumb was to use the four rivers that were stated in the Inland Wetland Regulations.

Commissioner Consentino asked if there were any Regulations on pesticides and, hearing that there were none under Planning and Zoning, asked if there could be some established. The Chair responded that in the past, pesticide use Regulations had been the purview of the Inland Wetlands Board.

The Commissioners also discussed understanding the Regulations and seeing that it would require an additional 25 feet of setback outside of the regulated area for pesticide and fertilizer implementation.

Mr. Baldelli stated that there was no Technical Correspondence.

There were no comments from the public.
