

Katie Bitner

Completed Bear Mountain Trail

Before Pictures

After Pictures

Cost

We didn't have to use any of the \$100! We had just the right amount of paint and other materials!

Challenges during the project:

- Finding a registered adult to sign up for each work session
- There was a wind storm that ended up blowing two trees over on the trail after the work days had happened
- The majority of the girls in my troop had to be quarantined during my work weekend
- Having to rearrange some of the blazes to make them more visible

**Thank you for giving me the supplies
and support to carry out this project!**
